

Video Door Phone System

THE COMELIT RANGE does not stop at the telephone door entry systems presented in this catalogue, but goes well beyond. The video door entry system catalogue n° 40 includes a large number of external and internal units with widely varying system solutions, able to fulfil all requirements.

CCTV catalogue n° 45 contains all the products needed to construct closed circuit surveillance systems for civil and industrial use.

Access control catalogue n° 47 makes it possible to construct control systems of entrances, ranging from the very simple to the very complex, with badge readers managed by a personal computer.

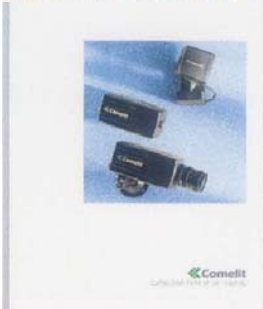

Finally, Letter box catalogue n° 48 gives numerous letter box compositions with or without entrance panels.
